

Steps for Happiness

HAPPINESS

WHAT WE DO

Siragukal curriculum is uniquely designed to captivate young minds through the powerful methods of storytelling and interactive games, promoting a dynamic and enjoyable learning environment in the early childhood education.

SIRAGUKAL KINDLES THE NATURAL CURIOSITY AND IMAGINATION OF YOUNG CHILDREN BY INTEGRATING

STORY TELLING

Engaging narratives that spark imagination, enhance language skills, and support cognitive development. Each story is carefully crafted to introduce foundational concepts in a manner that is both entertaining and educational.

INTERACTIVE GAMES

Play-based learning activities that reinforce educational content while fostering social skills, creativity, and problem-solving abilities. These games are designed to be both fun and purposeful, encouraging active participation and collaboration.

Our approach with "Siragukal" ensures that learning is not only effective but also enjoyable for young learners. We believe that incorporating storytelling and games into the curriculum aligns with the natural ways children explore and understand their world.

Potential Learning – Early Mental Development

INTRAPERSONAL

Sensitivity,
Intuition,
Spirituality,
Goal setting

MATHEMATICAL LOGICAL

Numeracy,
Science,
Patterns, Logic

SELF ESTEEM

Self-worth,
Confidence,
Sense of identity,
Sense of purpose,
Sense of belonging

THINKING SKILLS

Logic, Creativity,
Common sense,
Scientific

VISUAL / SPATIAL

Visual Arts,
Spatial Game,
Colour Sense

Siragukal's pathway to learning success

Siragukal brings with us three decades of expertise in fostering early mental development in children. Through extensive consultations with over 1000+ principals, teachers, and educators across India, we have observed a notable trend: many 7th-grade students struggle to recall what they learned in the previous year, with more than 99% indicating difficulty in retention.

Today's children are indeed more intellectual and capable than ever before. The methodologies we use to teach them need to be evolved to meet their needs.

At Siragukal, we hold the conviction that every child is unique and that academic engagement should align with their interests and involvement. In 2014, we founded Siragukal Model School, where we implemented a curriculum based on storytelling and interactive activities. The results have been overwhelmingly positive, demonstrating significant improvements in learning outcomes.

Acknowledging this success, we are excited to extend our innovative program to other schools. We are committed to enhancing academic experiences by integrating engaging methodologies designed for each child's unique learning style.

We look forward to collaborating and making a positive impact on students' educational journeys.
